Summary

Passionate and results-oriented Java Full Stack Developer with hands-on experience in developing and maintaining scalable, user-friendly web applications. Strong foundation in frontend, backend, and database technologies, including Core Java, Advanced Java, Spring Boot, Hibernate, MySQL, and RESTful APIs. Proficient in applying OOP principles and collaborating in team-based environments to deliver high-quality, performance-driven solutions

Education

Paavai College of Engineering, B.Tech Artificial Intelligence and Data Science

Dec 2021 – May 2025

- CGPA: 8.21/10.0

Internship / Training

Tap Academy - Java Full Stack Developer - BTM Layout, Bengaluru

May 2025 – Nov 2025

- Improved full-stack web modules using Core Java, Servlets, JSP, JDBC, Spring Boot, and Hibernate.
- Enabled CRUD operations for user, order, and product management using MySQL.
- Developed responsive user interfaces using HTML5, CSS3, JavaScript, and React.
- Used Git and Maven for version control and project management.

Projects

1. Food Delivery Application (Full-stack):

- Expanded and developed a full-stack food delivery web application (Feasto) that enables users to browse restaurants, view menus, place orders, and track order status through a secure and scalable system.
- Created Java-based backend using Servlets, JSP, and JDBC.
- Integrated MySQL database with optimized SQL queries for users, orders, restaurants, and order history.
- **Tech Stack:** Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat

2. Crafted a Responsive UI for an Online Food Ordering Application:

- Designed a clean, user-friendly layout that enhances the food ordering experience.
- Implemented an animated cart sidebar. Utilized CSS transitions and responsive grid layouts for improved visual appeal.
- Tools Used: HTML5, CSS3, VS Code

3. Mirroring BookMyShow Landing Page:

- Developed a responsive front-end interface replicating the **BookMyShow** home page layout and design.
- Implemented sections such as the navigation bar, movie banners, event listings, and responsive content grids.
- Tools Used: HTML5, CSS3, VS Code

Technologies

Languages/Database: Java, Java EE (JEE), JSP, JDBC, JavaScript (ES6+), MySQL

Web Development/Frameworks: HTML5, CSS3, Spring, Hibernate

Technologies/Tools: VS Code, GitHub, Eclipse, APIs, Maven, Git

Hobbies/Interests

- Listening to music, Playing cricket.
- Learning new Technologies

Publications

CNN and SVM-Based Drowsiness Monitoring Alertness System
